

# Enhancing Civil Society's role in implementing the Sustainable Development Goals

Ainka Granderson, Ph.D.

Caribbean Natural Resources Institute (CANARI)

Learning Conference: Implementing the 2030 Agenda in the Caribbean Region

Port of Spain, Trinidad | May 15-16, 2019

## About CANARI

CANARI is an independent, technical, non-profit organisation working across the Caribbean for 30 years.

Our mission is to promote and **facilitate equitable participation and effective collaboration in the management of natural resources** to ensure a better quality of life and conservation of natural resources critical to the development of Caribbean islands.

# CANARI's Civil Society & Governance Programme

Our goal is “to enhance the capacity of civil society stakeholders to participate equitably and effectively in the governance of natural resources and amplify their voices, through research and action learning, innovative capacity building programmes and communication and application of lessons learnt.”

**Capacity building** (technical and organisational), including training and mentoring

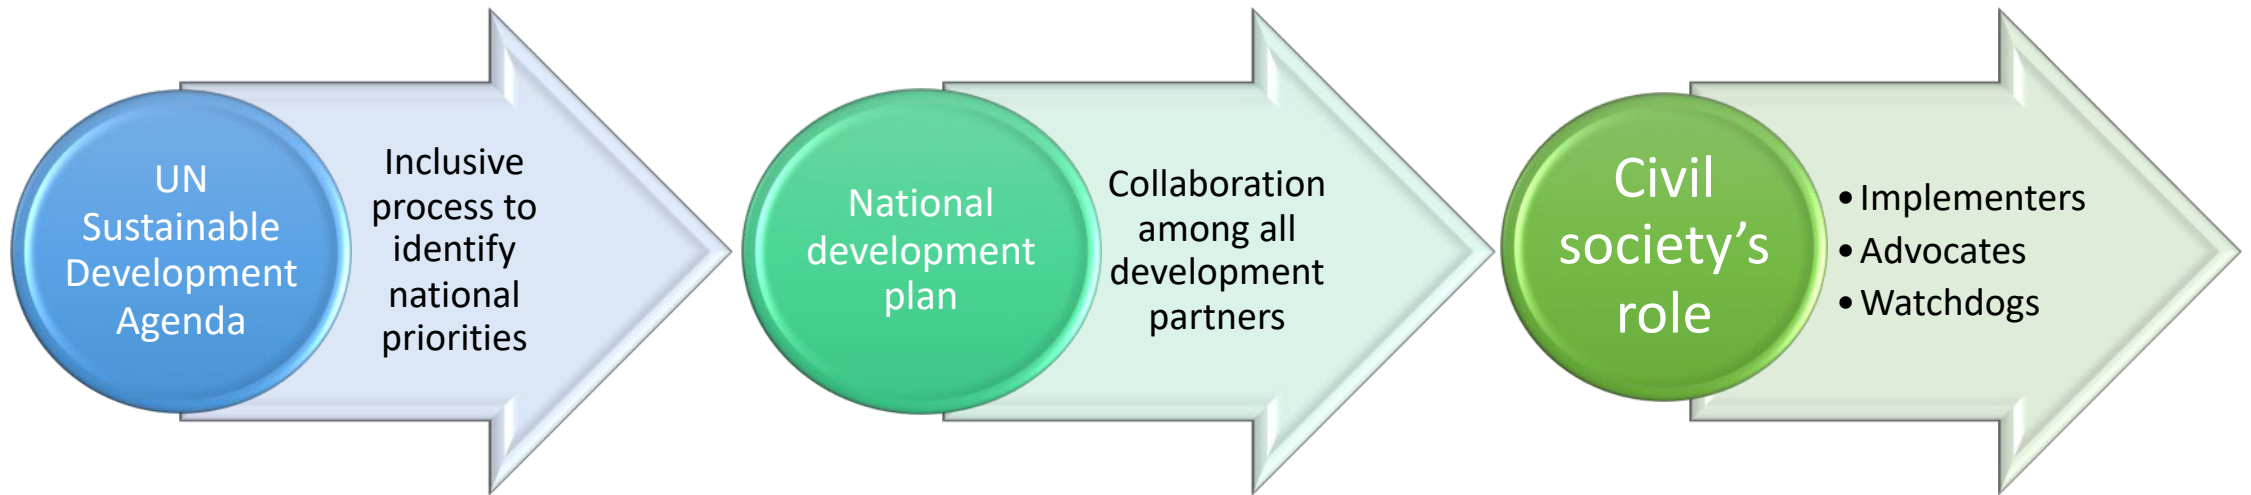

**Advocacy and facilitating participatory processes** to support civil society inclusion

Facilitating **networking and knowledge sharing**

## The Issue and Opportunity: Civil society participation in governance & development

There is the need for a more inclusive process to implement international commitments and national obligations for sustainable development

**Government cannot (and should not) do it alone!**

## CSOs For Good Governance:

Enhancing civil society's contribution to governance and development processes in Trinidad and Tobago

### The Initiative

Establishment and facilitation of an [\*SDGs Catalysts Network\*](#) – an informal network of 20+ leading Civil Society Organisations (CSOs) working across sectors to address the range of Sustainable Development Goals (SDGs) in Trinidad and Tobago.

## Objectives of the SDGs Catalyst Network:

### Advocacy

- **Develop** collective civil society positions and facilitate and promote joint advocacy to influence sectoral and national policy for implementation of the SDGs

### Action

- **Mobilise** and encourage civil society action for implementation of the SDGs and support reporting on civil society contribution to delivery of SDGs

### Partnerships

- **Improve** capacities for more effective partnerships among CSOs and between civil society and government and other development partners

### Participation

- **Ensure** effective civil society engagement in the prescribed national coordination mechanism for the SDGs being led by the Government

What results so far?

# Civil society started mapping and re-aligning its work with the SDGs

CSO Catalyts identify how their work is aligned with the SDGs.

# Promoting SDGs and communicating more effectively on their work

CSO Catalysts report on how their work is delivering the SDGs.

# Building relationships – identifying synergies, gaps, opportunities & improvements for working together

CSO Catalysts share a vision of working more effectively for collective advocacy and action.

# Civil society is collaborating for a stronger voice

“We believe the CSO sector can become a model for collaboration, engagement and innovative advocacy, with the SDGs as the foundation”

# Implementing practical advocacy action

CSO Catalysts are raising awareness and calling for policies and actions to support the SDGs.

# Engaging in knowledge sharing and exchange

Welcome to the  
**Caribbean Civil  
Society SDGs  
Knowledge Platform**

<https://hub.canari.org/sdg/>

**Now  
launched!**

We believe that CSOs will be able to participate more effectively in SDG advocacy and implementation if they are well informed about the SDGs and inspired by what other Caribbean CSOs are doing

## How can we enhance collaboration and partnerships with civil society for sustainable development?

Encourage governments to support self-organisation and capacity building within national civil society networks for effective representation and voice

Create spaces for CSOs to be formally represented on decision-making bodies and structures (e.g. national committees) and include civil society representatives on national delegations to inter-governmental fora

Engage civil society in the formal process to monitor national implementation, while recognising the value of independent monitoring and review by civil society (shadow or spotlight reports).

Create credible spaces for knowledge exchange and sharing to help enhance capacity and visibility nationally and regionally

# Thank you!

## CSO Catalysts have called on the government and the international community:

To recognise the contribution being made by civil society to delivering the SDGs in Trinidad and Tobago

To practice more participatory approaches to implementation of the SDGs which involve partnering with civil society and local communities in Trinidad and Tobago

To ensure that civil society is guaranteed an active role in national decision-making on the SDGs, including a role in deciding on priorities and monitoring implementation

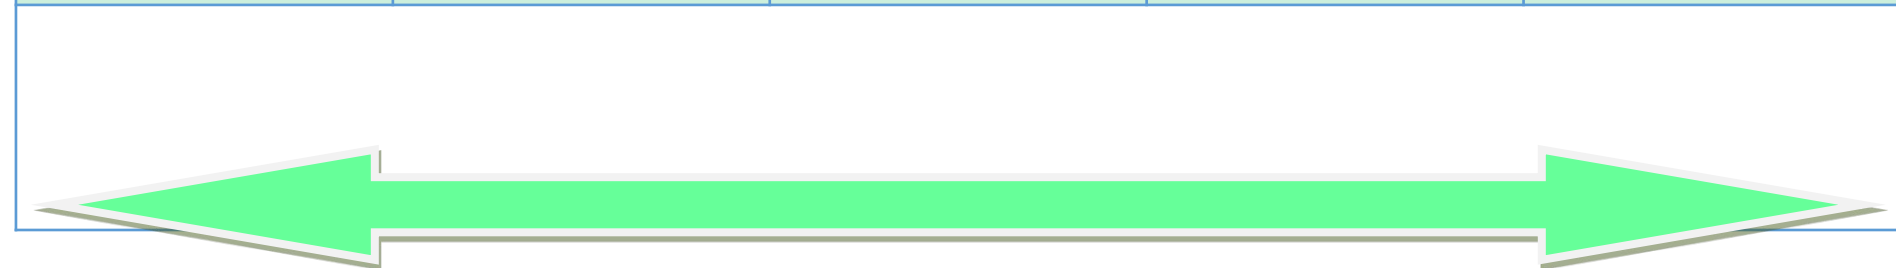

To offer the support civil society needs to serve as a critical partner in sustainable development in Trinidad and Tobago

# A continuum of participation

<p><b>Full control by agency with authority:</b>  <b>Top-down decision making where some stakeholders may be informed of some decisions</b></p>		<p><b>Control and decision-making shared between stakeholders</b></p>		<p><b>Full control by civil society stakeholders:</b>  <b>All stakeholders fully involved in decision-making</b></p>
<b>CONSULTING</b>	<b>ACTIVELY SEEKING CONSENSUS</b>	<b>DEVELOPING AND DECIDING ON SPECIFIC AGREEMENTS</b>	<b>SHARING AUTHORITY AND RESPONSIBILITY FORMALLY</b>	<b>TRANSFERRING AUTHORITY AND RESPONSIBILITY</b>
