

# CARICOM CORE INDICATORS FOR THE SUSTAINABLE DEVELOPMENT GOALS (SDGS): Assessment of Data Availability in CARICOM member States and Associate Members

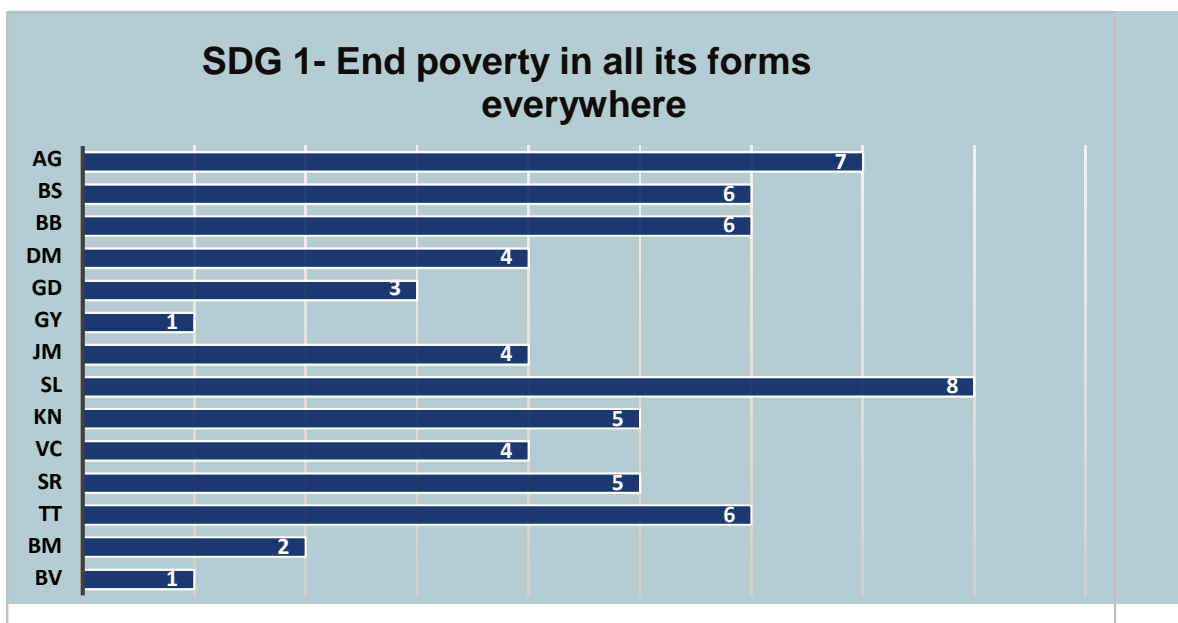

## SUSTAINABLE DEVELOPMENT GOALS

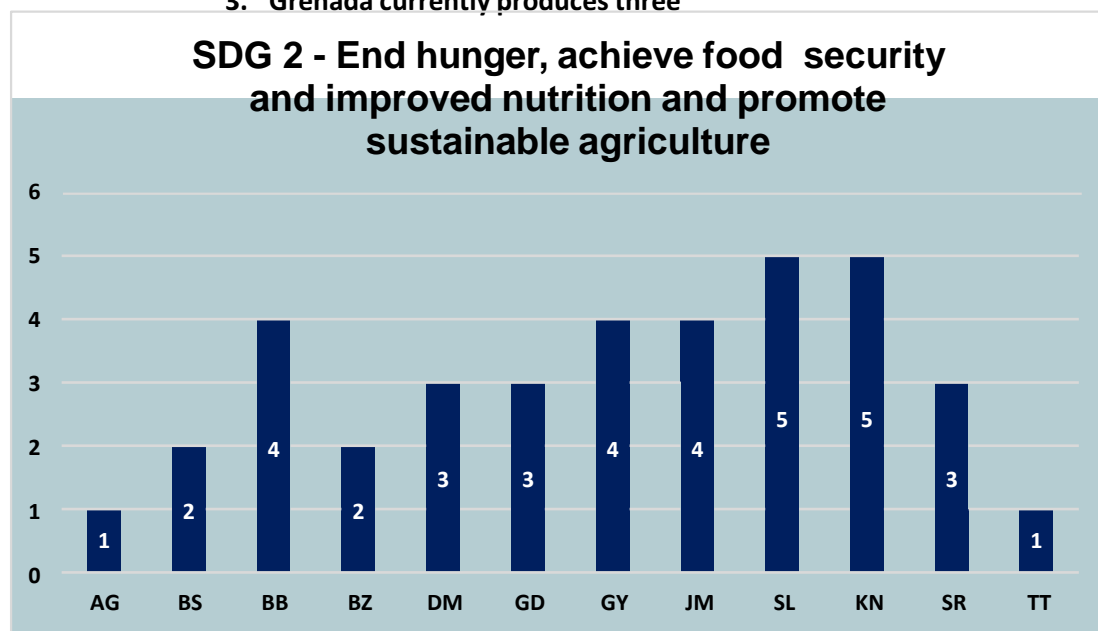

## **CRITERIA FOR SELECTION OF INDICATORS**

- ❖ The goals should be linked to the national and regional planning program and priorities for development and provide a robust measure of progress as it relates to development for CARICOM countries.
- ❖ The ability of the indicator to measure the SDGs in the context of the diverse population groups in CARICOM [leaving no one behind].
- ❖ The core indicators must reflect the unique vulnerabilities of CARICOM SIDS
- ❖ They must allow for comparability at the National, Regional and International level.

| <b>Abbreviation</b> | <b>Country</b>                 |
|---------------------|--------------------------------|
| AG                  | Antigua and Barbuda            |
| BS                  | The Bahamas                    |
| BB                  | Barbados                       |
| BZ                  | Belize                         |
| DM                  | Dominica                       |
| GD                  | Grenada                        |
| GY                  | Guyana                         |
| HT                  | Haiti                          |
| JM                  | Jamaica                        |
| MS                  | Montserrat                     |
| KN                  | St. Kitts and Nevis            |
| LC                  | Saint Lucia                    |
| VC                  | St. Vincent and the Grenadines |
| SR                  | Suriname                       |
| TT                  | Trinidad and Tobago            |
| AI                  | Anguilla                       |
| BM                  | Bermuda                        |
| VG                  | British Virgin Islands         |
| KY                  | Cayman Islands                 |
| TC                  | Turks and Caicos Islands       |
