Strengthening environment, climate change
and disaster information in the Caribbean
23-24 August 2022 – Santiago de Chile

The Global Network of Statisticians and Data Officers

- A facilitated **professional online social community**
- Launched in October 2020 on Yammer
- 2400+ users, ~3100 messages posted and read ~236,000 times
- Supports the work of all UN system entities
- Improves communication and collaboration with National Statistical Offices by fostering collaboration, knowledge-sharing, networking, and technical support

Yam Reggi Mei - October 25 at 5:40 PM
Happy World Statistics Day to all statisticians and data experts!

UN Secretary-General António Guterres message of World Statistics Day 2020
www.unstats.com

PT Pedro Ferrás - Now - October 20 at 21:43 PM - Edited
Happy World Statistics Day from the Economic Statistics Branch at UNCTAD!
We are working towards the final release of our new and improved SDG30 national accounts data division. (Please note the pop-up disclaimer)
Here you will be able to find updated official data, both annual and quarterly, for main aggregates, sectoral accounts and the balance sheet and other flows, for over 200 economies. Indicators include GDP, value added by industry, output, imports/exports, population and employment.

Runners for statistics – a virtual run around the world
World statistics day is about connecting the world with data we can trust, and to highlight the connection of statisticians all around the world, we invite runners to join us on a virtual run for World Statistics Day 2020!
2020 has become a year of virtual events. Virtual meetings, virtual birthdays, so why not a virtual run for World Statistics Day ...
You can run or bike anywhere and for any distance. We have set up a "Glow" group with expand

AW Alexander Loochay - October 21 at 10:00 PM
Yammer!!! (H) – "All Network" vs. "Discovery"
You have probably spent most of your time in the "All Network" group, which is a great place to watch because this is where everybody is posting right now. But in "All Network" older posts get always pushed to the top when new comments are added. This can be distracting, and you might lose track of other great new posts.
Instead try the "Discovery" feed! Just click on the home (house) icon in the left column. The Discovery feed will learn what YOU are interested in. You can "train" the Discovery feed by "following" people that have posted interesting things or by "following" topics. To follow a topic, click on the topic (hashtag) and click "follow" in the upper-right corner.

What you can do on the network

Get informed about events and activities held globally related to statistics and data management

Build capacities by attending live webinars, workshops and discussions & watching recordings

Advertise job and consultancy opportunities, call for papers or projects

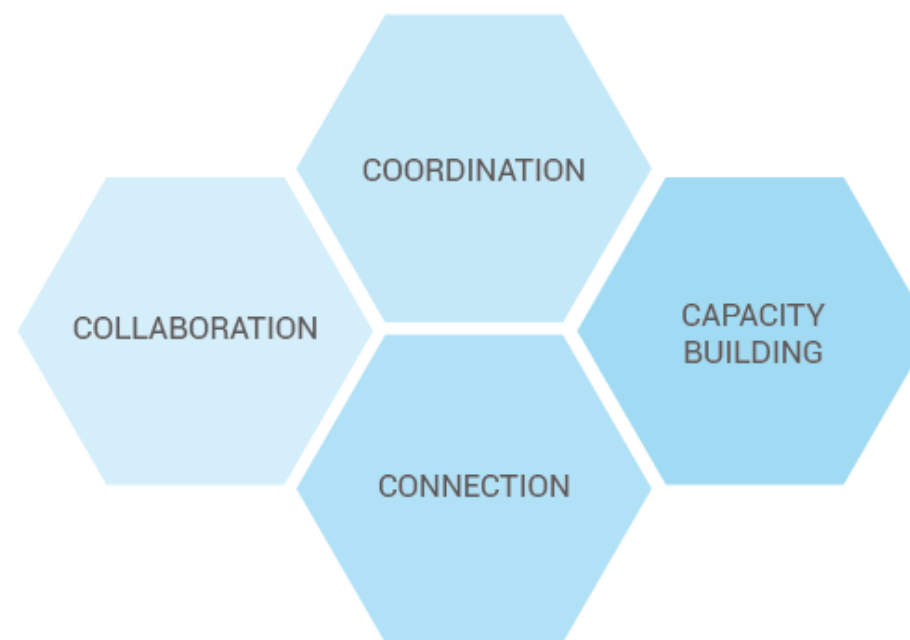

Find and propose expertise on specific topics

Connect with the global community of statisticians, geospatial data experts, and data officers

Exchange best practices, notably on the SDG Monitoring

Global Network Webinars

Confirmed upcoming Global Network Webinars (working titles):

20 Sep: ISI - Capacity Building

27 Sep: Stats Canada – Piloting an open-source calculation of SDG indicator 11.7.1 (share of the built-up area of cities that is open space for public use for all...)

4 Oct: ISWGHS – Combining surveys in small area estimation

Some past Global Network Webinars:

- Citizen science and citizen-generated data for monitoring the SDGs (19 Jan 2021)
- Speak Data! (19 Oct 2021)
- The New Global Set of Climate Change Statistics and Indicators (30 Nov 2021)
- Data Storytelling & Data Visualization Toolkit (25 Jan 2022)
- Harnessing Big Data to Support the SDGs (5 Apr 2022)

Recordings of all ~30 events available on our [Global Network Info Pages](#).

Our vision for the future

- Fruitful **collaboration** between statisticians, geospatial information experts, and RCO / UN Country Team staff
- A **community of practice** around data and statistics
- **Fostered collaboration** through the creation of thematic and regional groups
- **Capacity building** in identified fields
- Improved **communication skills**
- Provide members with an essential **training and resource environment**

An organically built **knowledge base**

Hello,
Please accept this as an invitation to contribute your expertise via an online survey to a [Wellcome funded project](#) aiming to develop a coherent and complete sets of statistical standards for monitoring impact of climate change on health.
This is a collaborative project that will be done in partnership with the UK Health Security Agency (UKHSA), two African countries, and the Cochrane climate and health working group.
We are currently in the early stages of this 4-year project and the purp... [expand >](#)
