Conclusions and recommendations

- For the countries who have not sent us any data yet, please send it if you still have it for 2019.
- Jamaica sent data of one record for Item. We would like to know if those prices are averages, if that is true, Jamaica must send us the number of all the prices and coefficient of variations for each item.
- For the all countries, we encourage to send us prices for foods and beverages for 2021.
