

Launch of the e-learning course on Disaster-Related Statistics Framework (DRSF)

Sokol Vako

United Nations Statistical Institute for Asia and the Pacific

31 October 2022

UNSIAP—Who we are and what we do

* Who are we?

- * Statistics training center for government officials and others working on official statistics.
- * Regional training arm of ESCAP—trainings open to all

* What is our mission?

- * Strengthen the capability of government officials and others to collect, analyze and disseminate statistics in support of evidence-based decision-making.

Our training programmes

- * Driven by country needs and demands
- * Support countries in building capacity for meeting reporting requirements
 - * National development plans and relevant indicator frameworks
 - * Sustainable development goals
- * One of the domains of our work is disaster related statistics.
 - * High in the policy agenda
 - * Use agreed upon methodology in developing trainings
 - * ESCAP flagship publication in this space is the Disaster-related Statistics Framework (DRSF)

What is the Disaster-related Statistics Framework?

- DRSF provides guidance on the compilation of disaster-related statistics
- It contains coherent and internationally consistent guidance for using existing data to produce information for all phases of disaster risk reduction
- At the center of it is an integrated approach that brings together colleagues from NSOs, NDMAs and other relevant agencies within government and beyond.

What is the training course on DRSF?

- * **Aim of the course:**

- * build national capacities for the compilation of disaster-related statistics for enhancing disaster management and promoting risk-informed sustainable development
- * facilitate national monitoring and reporting on the Sendai Framework for Disaster Risk Reduction and the 2030 Agenda for Sustainable Development

- * **Target audience:**

- * NSO staff working on disaster related statistics
- * NDMA staff
- * Other line ministries

What does it cover?

- * Introduction
- * Measuring disaster risk
- * Measuring disaster occurrence and impact
- * Measuring economic loss
- * Disaster risk reduction expenditure statistics
- * The DRSFs application to the COVID-19 pandemic

Where can I find the course and what else should I know?

- * Course available in English, Spanish and French (many thank to colleagues at ECLAC for their support)
- * Open to all—please feel free to inform other colleagues who might be interested in the topic
- * No cost and self-paced
- * Questions/technical issues: escap-siaptraining@un.org

<https://siap-elearning.org/>

Thank you!
